Defining a Concept: Assignment (Extended Definition of a Term)

Your paper should be 1 1/2 - 2 pages long.

- 1. Introduction: Define your term in one or two sentences.
- 2. Expand the definition of the term using one or more of the following strategies:

provide specific examples
use analogy
provide historical background
discuss causes/effects
classify types
compare or contrast with other terms
explain processes involved
discuss applications
talk about advantages and disadvantages

- 3. Make smooth transitions paragraph to paragraph. Topic sentences should be clear.
- 4. Do NOT include diagrams or equations: words only.
- 5. Do minimal research. Use the information you already have in your head or at your immediate disposal. If you must refer to sources for this paper, please submit a copy of your sources along with the paper.
- 6. Use specific examples and/or analogies to make the subject real to a non-expert. Think like a teacher -- how would I explain this to my brother or sister? How would I explain this to my aunt?
