15.281 Assignment

Analysis of Leadership Characteristics and Behaviors

This assignment asks you to consider your leadership experiences in various settings (e.g., work, school, teams, other organizations) along with readings and class discussions concerning leadership qualities and behaviors. Prepare a 3-5 page analysis of your leadership characteristics and behaviors. How would you describe your leadership qualities? Using specific examples and situations, illustrate the kinds of leadership behaviors you have used. Based on your analysis, are there behaviors you would like to change and/or characteristics you would like to eliminate or develop as you prepare for future leadership positions?
